- **UPGRADE** your knowledge on BBS and human factors
- **BE INFORMATIVE** regarding responsibilities and legal requirements
- **EXAMINE** the meaning and extent of the term "Health and Safety Culture"
- **MAINTAIN** and **PROMOTE** good standards of health and safety in the workplace
- **LEARN** your roles and responsibilities as Managers, Supervisors and Directors
- **IDENTIFY** key features and appropriate content of an effective health and safety policy
- **BETTER UNDERSTAND** the overall aspect of health and safety through interesting case studies and benchmarking exercises

## Why you Should Attend?

In today's global society organisation faces many challenges to manage Health and Safety effectively.

The challenges that they face include language, terminology, both internal and external cultural differences, varying degrees of health and safety management maturity at the site level and inconsistent levels of commitment to employee safety throughout the company.

This interactive course will look at topics that a company should be aware of to ensure successful health and safety management.

The course will involve participants in discussions, case studies, group work and bench marking exercise to help them to understand the challenges and how to manage them.

- ✓ Case studies and examples included will bring to life the components that will be discussed and dissected over the two days.

## Who Should Attend?

This intermediate to advanced seminar is ideal to a wide range of professionals but will greatly benefit those persons responsible for safety within an organisation at a global, regional or local level.

### This includes:

- ✓ All line managers
- ✓ Supervisors and team leaders
- ✓ HSE managers and advisors
- ✓ Human resources professionals

Who wish to improve their skills and competencies in order to be able to assume their safety responsibilities and effectively carry out their tasks safely in their organization.
