Why you Should Attend?

A rapidly changing and increasingly competitive global resource industry has resulted in a focus on efficient financial management and smart financial decision making.

For the technical manager this has meant a high level of technical expertise is no longer sufficient for superior management performance. If you are required in your line of work to manage assets, analyze investment proposals, justify or approve expenditure then attending this Masterclass will equip you with the essential skills you need.

Who Should Attend?

This Workshop has been researched and developed for Directors, Managers, Superintendents, Supervisors, Engineers, Planners, Team Leaders, Project Coordinators, Human Resource Management, and Sales & Marketing in the technical and non-technical departments from in every functional area of responsibility Across all industries.
