

# FINANCE MANAGEMENT FOR PROJECT MANAGERS – BUDGET AND COST CONTROL

## Finance and Activity-Based Cost Accounting in the Selection and Initiation of Projects

5th – 6th October 2017  
Kuala Lumpur, Malaysia

DELEGATES ARE  
REQUIRED TO BRING  
THEIR OWN LAPTOP  
AND A CALCULATOR

### Free take-away

- Certificate of Completion from the International Association of Financial Management (INTERFIRMA)
- Free Publication – Weekly Newsletters of INTERFIRMA
- Access to Research Services of INTERFIRMA

### Major Benefits Of Attending

By end of this course, delegates will be able to:

- **UNDERSTAND** the stages of a project life cycle and the costs or revenues attached to each
- **ACQUIRE** the ability to evaluate the profit of a project over time
- **UNDERSTAND** the risks associated with each stage of costs, but also the risks of changes to revenue flow
- **MASTER** the understanding of the business case for projects
- **DISCOVER** the tools and techniques of financial analysis
- **GAIN** improved control over your project and the risks involved

### Why you Should Attend?

This course is about the project, not the detail of the project. In running a project, you will probably have the knowledge and the people to get it done. This course focusses on the big picture, and understanding the project on a week-by-week basis, not minute-by-minute. Finance is about planning the project and controlling it once started. It is about tracking the sum of all the decisions made every day, to allow you to always know the big picture. This course will give you powerful tools to stay in control, and if you do that, you maximise the likelihood of bring in the project on time, on budget, and to the required specification.

### Who Should Attend?

This training is highly recommended for anyone who has to manage a project, especially a project that extends over time. It does not assume project management knowledge or experience, or financial training. It is for any manager with project responsibility. Some of the job titles are:

- ✓ Project, program and portfolio managers
- ✓ PMO staffs
- ✓ Individuals from non-financial disciplines
- ✓ Newly appointed managers, supervisors and team leaders
- ✓ Any manager or supervisor who is likely to be tasked with managing a stand-alone project
