Why you Should Attend?

This Two-Day seminar reviews and summarizes all ISO9001:2015 requirements and implications, impact towards management and reveals best practice strategies to use ISO 9001:2015 principles to create Organizational Excellence. The seminar enables participants to apply ISO 9001:2015 to better analyze financial situations, determine and evaluate risk properly, and employ knowledge management tools and techniques in resolving organizational challenges.

Participants will learn how to use the new ISO9001:2015 standard to better motivate and evaluate staff; how to manage human resources according to the ISO9001:2015 requirements, and how to develop measurement systems to determine organizational improvement. The focus is also on identification of what ISO 3rd Party Registrars are looking for when auditing organizations on the new ISO 9001:2015 and will provide. The Seminar will also focus on the perspective of introduction into the process auditing approach. A Lead Auditor, Internal Auditor, Supplier Auditor, and Trainer for ISO9001:2015 based Quality Management Systems will facilitate the Seminar/Workshop with "Hands-On" 3rd Party Certification audit experience will facilitate the seminar.
