THEIR LAPTOP
FOR RESEARCH,
DISCUSSION AND
PRESENTATION
PURPOSES**

By attending this 2 day training course, you will be able to:

- **ALIGN** your finance talent strategy with overall business needs
- **LEVERAGE** outsourcing and off-shoring to improve finance function efficiency and effectiveness
- **MOVE** from finance as a function to finance as a service
- **EMBRACE** the digital age of technology and measure its impact
- **ACHIEVE** global consistency of processes across all finance businesses
- **BREAK DOWN** organizational barriers and forge strategic enterprise-wide business partnerships

Why you Should Attend?

With only 4 years to the EXPO 2020 in Dubai growth in business and opportunities widespread across the region, businesses are poised on the threshold of immense activity. The Finance function holds an increasingly strategic, as well as operational, role in managing and supporting the enterprise in its quest for growth and profitability. Today's technology applications, outsourcing strategy and process development provide the support needed to make the most of these opportunities – but Finance's inherent risk aversion means it has lagged in moving forwards. This course examines possible ways to face the future with confidence and optimism.

Who Should Attend?

This training is highly recommended for...

- ✓ CFOs
- ✓ Finance Division Managers
- ✓ Shared Service Professionals
- ✓ Finance Directors
- ✓ Management accountants
- ✓ Corporate accountants
- ✓ Budgeting and forecasting managers
- ✓ Corporate finance teams
- ✓ Financial business analysts and advisers
