- **MASTER** the importance of Competencies on HR, and especially in Strategic Recruitment
- **DEVELOP** their own interpersonal skills to help them achieve Strategic Recruitment, interviewing and selection

Why you Should Attend?

Bringing the right talent into an organisation is absolutely critical as well as being very difficult. Recruit the wrong candidates and you may be 'stuck' with people who are not adding 100% to the organisation. Recruiting the right talent ensures that you are adding to the resources of the organisation which leads to a better result and making the job of management easier.

One of the best definitions for staff recruitment is to make your process; **Effective, Efficient and Fair.**

- ✓ **Effective** means that the process you use gets the BEST candidates to fill your posts.
- ✓ **Efficient** means that the process is well managed and optimized not to waste management time unnecessarily on this key activity.
- ✓ **Fair** means that you are operating within the law but also operating in a way that prospective candidates think you are a good company to work for. Fair is part of your Employer Branding

Underpinning all this is to have a **Competency Framework** that allows you to operate in a way that supports all the organisational HR processes. Competencies are the basis of effective recruitment, effective performance management and ensure managers and leaders have the right skill set.
