

Plant Commissioning and Start Up Strategies

“Master In Planning And Executing the Effective Strategies For Successful Commissioning Process”

31th July - 2nd August 2019
The Ritz-Carlton, Kuala Lumpur, Malaysia

Major Benefits Of Attending:

The aim of this comprehensive training course is to provide the delegates with a sound understanding of the main features of Plant Commissioning.

By attending this 3 day training course, you will be able to:

- **GAIN** INSIGHTS on step by step phases of commissioning planning
- **RECOGNISE** project safety management as applied in process plant start up, commissioning & troubleshooting
- **ESTABLISH** clear guidelines to individual roles and responsibilities in the project
- **INTRODUCE** instrumentation & control systems in process plant startup and conduct performance trials
- **MANAGE** efficiently the electrical, utilities, and machinery systems during initial operations
- **MONITOR** the progress of initial start-up operations and make appropriate adjustments to variables
- **REINFORCE** troubleshooting and problem solving strategies which can be applied
- **MINIMISE** risk in the commissioning process by adopting risk based commissioning
- **LEARN** from possible hiccups highlighted at the different stages of the commissioning process

Why you Should Attend?

This 3 day training course will provide the participants with an awareness of the unique challenges associated with plant commissioning and start-up situations, an understanding of the key concepts, tools and techniques that can be used to facilitate the effective planning, execution, control and management of these situations.

Participants completing this Plant Commissioning and Start-up training course should be able to contribute confidently to the planning and execution of effective strategies for plant commissioning and start-up in their own.

Who Should Attend?

This course specially designs for Heads, Managers, Section Leaders, Team Leaders, Engineers and Superintendents from:

- ✓ Operation and Maintenance
- ✓ Process Engineers
- ✓ Plant Engineers
- ✓ Plant Start UP Team
- ✓ Project Management Team
- ✓ HSE Representatives
