

EPC & EPCIC Contracts Masterclass

Safeguard the projects essentials and maintain contractor relationships for long term success and efficiency

21st – 23rd July 2019 | Fairmont Dubai, United Arab Emirates
12th – 14th August 2019 | The Ritz-Carlton, Kuala Lumpur, Malaysia
(3 nights Free accommodation at Ritz Carlton)

Major Benefits Of Attending – You Will Be Able To:

- **LEARN** in detail, the issues to be addressed when negotiating EPC and EPCIC contracts
- **DEVELOP** an awareness of the procurement options for projects and the associated risks and opportunities.
- **CONSIDER** alternative pricing, incentivisation and risk allocation approaches and learning about current market trends
- **ACQUIRE** an understanding of the current EPC and EPCIC markets and the legal risks associated with such forms of contracting
- **GAIN INSIGHTS** to what the major areas of dispute may be in construction projects and how to manage them
- **DEVELOP** an understanding of the key specificities of construction projects in the Middle East

Why you Should Attend?

You will not only gain a solid legal basis and understanding of EPC and EPCIC contracts but will also learn how to apply them in practise. You will learn and gain knowledge of the unique features and provisions, i.e. both the “good” and the “bad”, of typical EPC and EPCIC contracts encountered.

Get to grips with the procedures and issues (such as time-bars) that typically tend to trip you up and become more proficient in your understanding and application of these contracts. Maximise your chances of preparing, quantifying and submitting successful claims.

Gain an understanding of risks and how to minimize and manage them. Learn how to avoid but also how to deal with disputes.

Who Should Attend?

This course is highly recommended for professionals involved with or responsible for the procurement and implementation of EPC and EPCIC contracts.

- ✓ Employers (Operating in retail, infrastructure, transportation, petrochemical or the oil and gas industry)
- ✓ Contractors and sub-contractors
- ✓ Engineers and Project managers
- ✓ Architects
- ✓ Quantity Surveyors and cost engineers
- ✓ Planners
- ✓ Legal advisors and others involved with or responsible for the procurement and implementation of EPC and EPCIC contracts
