Kuala Lumpur Hotel: *This course will be conducted at the hotel with the trainer on site. Participants will need to bring their own laptop. Lunch/Dinner and 2 networking breaks will also be provided.*

Why you Should Attend?

This course has been designed to cater for internal audit practitioners at various levels of their internal audit journey. The course will benefit each of the below practitioners in different ways:

- Chief Audit Executive (CAE): The CAE will be able to learn the different mechanisms by which they can integrate root cause analysis into their internal audit methodology.
- Internal Audit Managers: They will be able to better enable their internal audit teams in applying root cause analysis techniques resulting in impactful audit reporting.
- Internal Audit Supervisors & Seniors: They will utilize root cause analysis principles during field work and ensure that the nature of recommendations they are providing address the real causes that resulted in the deficiencies identified.
- Internal Auditors: Internal auditors that have recently joined the profession will be able to understand exactly how root cause analysis can be integrated in their audit execution.

Who Should Attend?

The course will benefit internal audit practitioners in all fields including practitioners in risk management related functions. Therefore, we recommend the following to attend this course:

- Chief Audit Executives
- Internal Audit Managers
- Internal Audit Supervisors & Seniors
- Internal Auditors
- Operational Risk Specialists
