Major Benefits of Attending

The course will be able to guide the auditors to be able to conduct root cause analysis to identify the underlying reason for the occurrence of an error, problem, missed opportunity, or instance of non-compliance.

Hence, when conducting a root cause analysis, internal auditors must exercise due professional care by considering effort in relation to the potential benefits (as per IPPF Standard 1220.A1).

Course Methodology

Client has the option to choose to participate either below method.

Online Course : *This course will be conducted via Zoom.*

Kuala Lumpur Hotel: *This course will be conducted at the hotel with the trainer on site. Participants will need to bring their own laptop. Lunch/Dinner and 2 networking breaks will also be provided.*

Why you Should Attend?

Root cause analysis (RCA) is a powerful tool for finding and fixing the underlying problems that cause unwanted outcomes.

Whether you are dealing with customer complaints, product defects, project delays, or any other issue, RCA can help you identify the root causes and prevent them from recurring.

Who Should Attend?

The course will benefit internal audit practitioners:

- Executive, Manager and Head of Department of Internal Audit Functions who are responsible for the execution of the internal audit function
- Audit Committee Members
- Those in Charge of Governance
