## Course Methodology

This 2-day e-Learning Course will be conducted via ZOOM - Webinar / Video Conferencing. Delegates are required to have a working Webcam and Headset with Microphone. For a smooth conferencing, delegates should have an Internet Speed of at least 8Mbps Download and 1.5Mbps Upload Speed.

## Why you Should Attend?

The program will identify best practices for leadership and management of maritime security roles including the main responsibilities for the port facility security officer (PFSO):

- Compliance with the ISPS code
- Prescribed Trade with ships engaged on international voyages and other categories covered by the code
- Enhanced risk assessment and critical infrastructure identification
- Robust security countermeasures to enhance protection
- Increase in professional reputation

## Who Should Attend?

This masterclass is not limited to any specific industry or organization size. That said, any company in any industry/sector at any size or stage could equally benefit from it. Having multiple participants from the same company is highly recommended because there is a lot of collaboration involved in the OKRs development activities that we do during the masterclass.

Advanced Maritime Security Masterclass is addressed primarily to:

- Government officials (Ministries, Statutory Board, Contracting Governments and Designated Authorities)
- Port facility management/employees and supply chain operators;
- Shipping related companies and shipboard personnel;
- Academia, Research and Development specialist involved in maritime security related subject matter
