Why you Should Attend?

Records managers see recordkeeping systems in a larger framework than just the records alone. Such systems include people who create and use organizational records, policies related to records, procedures to ensure maximum access to and use of records, tools and technologies to create and store records in a variety of formats, as well as education and store records in a variety of formats, as well as education and training both for records managers and those they serve.

This course covers effective strategies, techniques, systems, policies and procedures to manage all kinds of documents including paper files, records, content, knowledge and information to meet international best practices and ISO standards to manage the storage, retention, archiving and formal destruction of records.

Organized by:

HRDcorp
Registered
